Genuine leather is the finest working material that showcases the quality of our craftsmanship.

We handcraft each piece with precise attention to the finest details.

What sets us apart is our exceptional embossing quality.

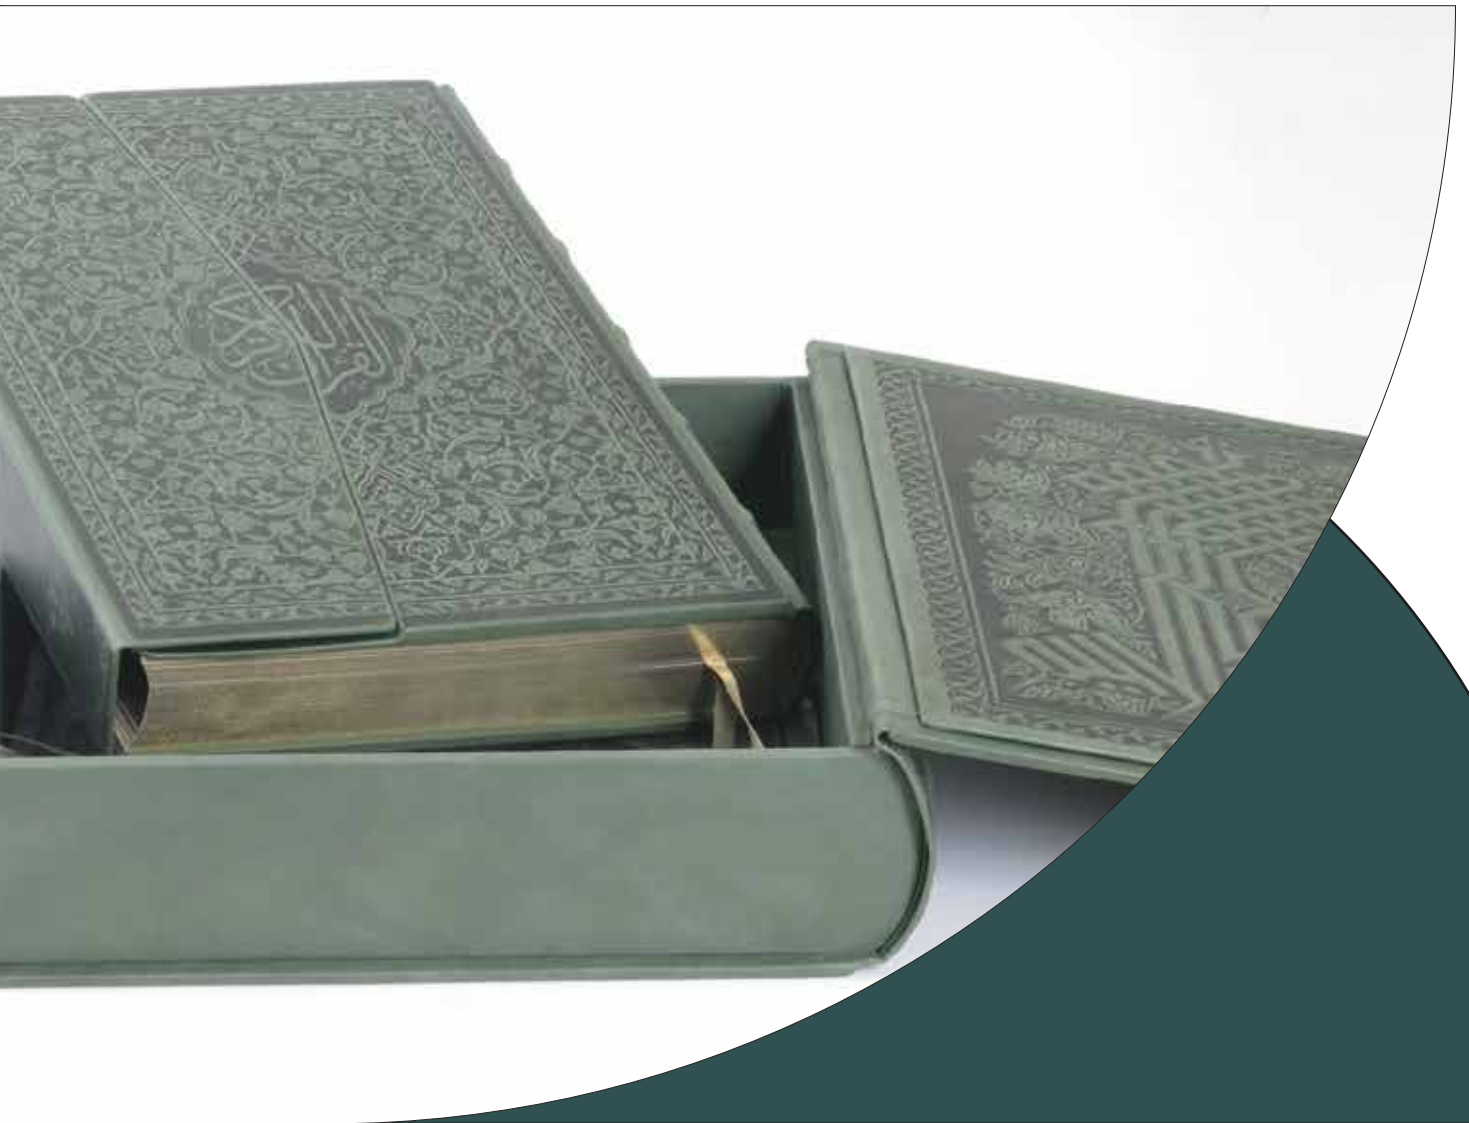

We achieve deep, smooth and premium embossing up to 2mm while maintaining the interior surface free from any deformation

*Unrivalled in our
local market*

Since 1978, we have been serving the sector for more than half a century in the production of leather products by using all our savings by concentrating on the leather sector.

Our manufacturing process reflects the refined aesthetic sensibility we have developed through years of experience and our steadfast commitment to quality.

Original Quarter Binding

The spine of the book cover is made entirely by hand and increases its durability. It looks more aesthetic compared to automated production.

Miklep

The “mikle”, as an additional cover, passes through our hands with impeccable workmanship

Raised Bands

Raised bands are made entirely by hand and with great care with original ribbon pieces.

Rounded Corners

The rounded corners are made completely by hand and folded thinly, giving a much more aesthetic appearance than automated production

*Years of experience
in both mass production
and boutique production*

*Solution
oriented
R&D studies*

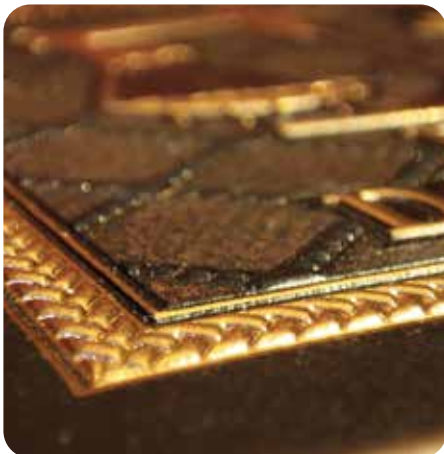

*Demand
oriented
original
cover design*

*Harmonious working
and solution-oriented
production planning*

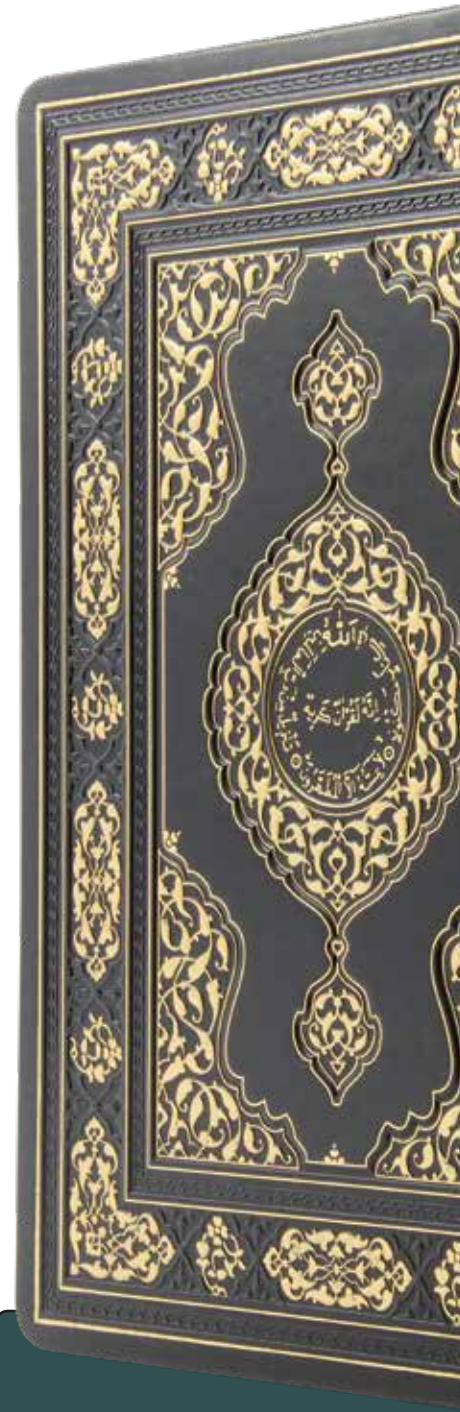

Deep Embossing

Our 2 mm deep smooth and aesthetic embossing application and our ability to work with all types and colors of PU make us unrivaled in the field of thermo PU work.

Gold Leaf Stamping

Our gold gilding applications on embossing are not only high quality, but also do not spill and do not wear out.

Thermo PU

Our business is not only about... Thanks to our r&d team... wide variety of PU work... created supply by conducting... r&d studies and introducing... models to the market with...

Application

only manufacturing.
um, we have created a
rkspaces. we have both
ucting demand-oriented
luced new production
th our innovative ideas.

Multiple Gold Leaf Application

Our multiple gold leaf applications are worked with precision thanks to our experienced production staff. There are three types of foil in the image. Shiny gold foil, matt gold foil and red foil.

EXCLUSIVE

Box Production

Our box manufacturing range again meets the demand of prestige products. We have gained experience in manufacturing a wide variety of boxes by coating wood or cardboard with leather and PU. We have even added the production of boxes with only paint and lacquer coating to our business range.

*Genuine leather box and
book cover application*

PU leather and gilding-embossing on wooden box

Box making with our PU coating and gilding-embossing application with cardboard only

boxes that we manufacture only with paint and varnish

Various Exclusive Products

We have met the prestige leather and box needs of many different sectors. The advantage of our versatility has returned to us as reliability and demand.

Hawk glove

Mailman Bag

Cufflink box

This product, which is a wooden box with velvet inside and leather outside, is an example that we meet the exclusive needs of the jewelry sector in terms of jewelry storage.
